Upchurch

All I need is vibes
All I need is vibes (Let the band play)
Cheatham County AC ya bitch
Yeah, all I need is vibes

Rolling through these county streets I wonder what the hills can see
If they could tell a story I would listen to the legacy
The whispers from the swaying trees, vibrations come from under me
Elements from earth is what I'm made from, all I really need...

Is vibes, vibes, vibes
All I need is vibes
I need vibes, vibes, vibes
All I need is vibes
Gimme vibes, vibes, vibes
All I need is vibes
Rolling, doing 60
Rumbling in this 4 wheel drive

Churchman, hell yeah, I love getting money but getting high is my shit though
h
Girl scout cookies broke down in the console, square body, white wall, sitting on rose bed
Bad bitch on my iPhone from Puerto Rico, redneck famous no strings or loopholes
Not forgetting how I got it even if I'm going solo
Treat my studio like a goddamn dojo
One, two years, I was pretty much a hobo
I said being broke was a motherfucking no-no
Life's a green light, all I wanna do is go-go
Competition outta gas, why they going slow though
Ha, shit, I don't know
Fuck everybody's dream, let mine unfold
I'm making me a legacy to be passed and told
And if I could I'd probably dip my last name in chrome

Rolling through these county streets I wonder what the hills can see
If they could tell a story I would listen to the legacy
The whispers from the swaying trees, vibrations come from under me
Elements from earth is what I'm made from, all I really need...

Is vibes, vibes, vibes
All I need is vibes
I need vibes, vibes, vibes
All I need is vibes
Gimme vibes, vibes, vibes
All I need is vibes
Rolling, doing 60
Rumbling in this 4 wheel drive

Home from the hotel, no riding coat tails, told all of my old friends, fuck y'all and farewell
They was going nowhere, stuck off on their own, they had no job, no bills, no skill, no shame, oh well
Ha, and here I am
Most famous redneck on Instagram
Hiding all my hot guns from Uncle Sam

South Bay with my van
I'm from the dirty dirty, muddy water dripping from the gutter
You never underestimate a country motherfucker
Got a really big family, gotta several lot of brothers
Nashville see me coming thought I looked just like a sucker
Better think again when you think of me
I'm Dixieland, I'm Tennessee
My songs gonna jam when we're all deceased
Call me Mr. Cheatham County AC ya bitch

Rolling through these county streets I wonder what the hills can see
If they could tell a story I would listen to the legacy
The whispers from the swaying trees, vibrations come from under me
Elements from earth is what I'm made from, all I really need...
