

Daywalker

Upon a Burning Body

I know a place where evil's lurking
A place that stinks of putrid sin
Pierce the skin just to watch it bleed
The realm of darkness creeping in
The end of existence

The urge devours
Devours me

I can't escape the taste
The bloodlust
The flesh between the teeth
Satisfy me
The setting sun
The dead of night
Destroying everything that's left inside
Show em your teeth

Psychosis taking control
Enticing you to indulge
Like maggots eating through bone
This feeling isn't my own
There's a price to pay
And now you've sealed your fate
For all eternity

I can't escape the taste
The bloodlust
The flesh between the teeth
Satisfy me
The setting sun
The dead of night
Destroying everything that's left inside
Show em your teeth

I stare at broken mirrors
I fear I've lost myself
Bite down, watch it bleed
Show me your fucking teeth

I can't escape the taste
The bloodlust
The flesh between the teeth
Satisfy me
The setting sun
The dead of night
Destroying everything that's left inside
