Extermination

Upon a Burning Body

Save your pity for the weak

Let go
No more excuses
Let go
Of the life you've known
Listen
To your intuition
Don't let
Fear control
Let go of the life you've known
Don't let fear control
I won't live at the bottom any more

Destroy the weakness
To be on top of the world
Extermination
Taking over the world

So let me tell you
You can't break what you didn't build
You don't own anything you steal

Face your fears and reap the reward
Nothing in life worth having comes easy
So let go of the life you've known
Don't let fear control

Destroy the weakness
To be on top of the world
Extermination
Taking over the world

I won't live at the bottom anymore
So save your pity for the weak
