

Thunderheart

Upon a Burning Body

Thunderheart

Stay the course and cut your teeth
On the truth you can't unsee
Don't bastardize what lies beneath
Searching for the answers you just can't reach
Black sheep in the crowd of normalcy
Back to the start
Thunderheart

No limitations
Only salvation

Pressure cracks and growing pains
Don't compromise for riches and fame
Temptation calling you to stray
Feel my heart when you hear my name

This world can drag you under (Drag you under)
Don't let it tear you apart
This world can drag you under (Drag you under)
Let's get back to the start
Thunderheart

Pressure cracks and growing pains
Don't compromise for riches and fame
Temptation calling you to stray
Feel my heart when you hear my name

Weighing like anchors
The pressure pulls at the heart
Thunderheart
Don't let it tear you apart
Thunderheart

No limitations
Only salvation

Pressure cracks and growing pains
Don't compromise for riches and fame
Temptation calling you to stray
Feel my heart when you hear my name
