

Get Up!

You can't deny the place where you belong
Cause every path is going to bring you back there
Does everybody get what they deserve?
We sacrificed everyday of our life to break this wall
We all are ready and set to go
We're coming just to burn your place down

We won't make your decision we'll let you drown in your tears

No god loves no god will try to save you

This is the time to show the scars on our chest
The time we live will never be a regret
We just don't give a fuck
But we will never sit and wait

Get Up!

No faith no soul no fucking glory
There is no goddamn way back
You'll never get us
We won't make your decision we'll let you drown in your tears
Hell yeah!

Fuck fuck fuck yeah
Let your demons bring you down

No god loves no god will try to save you

This is the time to show the scars on our chest
The time we live will never be a regret
We just don't give a fuck
But we will never sit and wait
