

Lady Jesus

UPSAHL

Welcome to my funeral
Please take a seat
Right here lies the body of the bitch I used to be
She was crying every night
I sacrificed her in her sleep
If she didn't get to Heaven
Then I hope she rests in peace

Look at me now
It's the second coming, baby, watch out
None of that boy shit weighing me down
More than money on my mind, middle finger to the sky like

(Wow) Straight out of Phoenix like
(Wow) It's lady Jesus
She took a nosedive off the Hollywood sign
But she's back, she bad, yeah, better believe it
(Wow) She got 'em kneeling like
(Wow) It's lady Jesus
She's speeding down the 5 'cause she already died
Yeah, she's back, she bad, yeah, better believe it

Rose from the coffin
Now I'm a prophet
Water to vodka and I'm walking on it
Didn't have to go that hard
Sunset Boulevard
You would be so blessed if I broke your heart

Look at me now
It's the second coming, baby, watch out
To all the people I don't like, bow down
I almost let 'em kill my vibe, middle finger to the sky like

(Wow) Straight out of Phoenix like
(Wow) It's lady Jesus
She took a nosedive off the Hollywood sign
But she's back, she bad, yeah, better believe it
(Wow) She got 'em kneeling like
(Wow) It's lady Jesus
She's speeding down the 5 'cause she already died
Yeah, she's back, she bad, yeah, better believe it

We all know God was a baddie
But so was Jesus
Amen
Shit, a-women

It's lady Jesus
It's lady Jesus, yeah
(Wow) Like wow, like
(Wow) Wow
She took a nosedive off the Hollywood sign
But she's back, she bad, yeah, better believe it
