

Ritual

UPSAHL

Walk into the room when I have power
Better by the minute, every hour
Already taking names like it's all a game I play
Put me on the AUX, I want it louder
If you wanna catch me on the flip-side
See my point of view, then use your invite
Way up in the clouds, never coming down, look around
Life in technicolor, call it Dislyte

Don't miss it
I want this position
It's turning all my enemies to energy
Can't stop
I know how to talk, so

Listen up
Co-o-ome real close
If you - if you want cu-u-u-ut throat
I can mess you up nice
Give you a show
I just call it ritual

Listen up
No-o-o-o smoke
If you - if you want air I'll make you choke
I can mess you up nice
Give you a show
I just call it ritual

Sorry that I'm busy, I've been up late
Taking over stories on the front page
Like "Esper, Esper, read all about it"
Now it's time to let the devil out her cage
I don't play gently, don't tempt me
If I lose my temper I'mma end ya
Yeah it's just like clockwork
Try to waste my time
I'll run it back again and it's divine

Don't miss it
I want this position
It's turning all my enemies to energy
Can't stop
I know how to talk, so

Listen up
Co-o-ome real close
If you - if you want cu-u-u-ut throat
I can mess you up nice
Give you a show
I just call it ritual

Listen up
No-o-o-o smoke
If you - if you want air I'll make you choke
I can mess you up nice
Give you a show

I just call it ritual
(I just call it ritual)

Get me out my physical
It's so clear it's visible, yeah
You can call me difficult
I just call it ritual
Get me out my physical
It's so clear it's visible, yeah
You can call me difficult
I just call it ritual
