Stressed

UPSAHL

I can't sleep, stare at my phone until it dies
I overthink like it's my job to lose my mind
So cliche, drown in my problems late at night
And no, I don't need your advice

Don't call me up late
Askin' for favors or tryin' to
Fix all your mistakes
'Cause I'm tired, I'm drained, I can't even see straight and I'm...

Stressed, a lot goin' on in my head right now
I'm stressed, tired like I'm already dead by now
No, you won't break me, whatever you say
Put on a face and pretend I'm okay
But I'm stressed, I don't have time for your mess right now

Stressed, yeah, yeah
Stressed, yeah, yeah

Lost control, not wakin' up to my alarms
Anymore, I maxed out all my credit cards
But I'm still fine, adrenaline's my only vice
Sometimes I cry to pass the time

Don't call me up late
Askin' for favors or tryin' to
Fix all your mistakes
'Cause I'm tired, I'm drained, I can't even see straight and I'm...

Stressed, a lot goin' on in my head right now
I'm stressed, tired like I'm already dead by now
No, you won't break me, whatever you say
Put on a face and pretend I'm okay
But I'm stressed, I don't have time for your mess right now

Stressed, yeah, yeah
Stressed, woah, woah

Oh, what a feeling
Feeling so low, yet so high
Oh, what a feeling
In love with the thrill of a fight

Stressed, a lot goin' on in my head right now
I'm stressed, tired like I'm already dead by now
No, you won't break me, whatever you say
Put on a face and pretend I'm okay
But I'm stressed, I don't have time for your mess right now

Stressed, woah, woah
Stressed, woah, woah
Stressed, woah, woah
Stressed, woah, woah
