

# Time Of My Life

UPSAHL

I think I'm done with twenty-one  
This isn't that much fun  
I made a bunch of friends  
So I could use 'em as excuses to get drunk  
Don't feel like I'm enough  
I bought a bunch of shit that doesn't fit  
But I can't wait to take it off

I cleaned my room  
I paid my dues  
I did all of the things that they all told me to  
I filled my head  
With common sense  
I did all of the things that everybody said

So how come all the worst days  
Are in the time of my life, time of my life, time of my?  
Yeah, baby, it's my birthday  
But I still wanna die  
Time of my life

I think I'm done falling in love  
The last one left me numb  
I go to all the parties but I really only came here for the drugs  
Threw out my fake ID  
Been staring at the mirror for a year but that girl still don't seem like me

I cleaned my room  
I paid my dues  
I did all of the things that they all told me to

So how come all the worst days  
Are in the time of my life, time of my life, time of my?  
Yeah, baby, it's my birthday  
But I still wanna die  
Time of my life, time of my

If this is it I want my money back  
Don't make it last  
I'm anxious and I can't relax  
Yeah, how come all the worst days  
Are in the time of my life, time of my life?

Guess I'm gonna fake it  
'Cause I still look amazing  
I think I'm gonna waste this  
Time of my life, time of my life, time of my

If this is it I want my money back  
Don't make it last  
I'm anxious and I can't relax  
Yeah, how come all the worst days  
Are in the time of my life, time of my life?
