

# Toast

UPSAHL

Fight all night  
Until we're making up and kissing it right  
I'm in, zoom out  
Now that I'm way up here I'm feeling your doubt

(Who are you?) Would have let you kill me slowly  
(Who are you?) I'm grateful that you even left  
(Who are you?) Something about the way you hold me  
Making it hard to forget  
Who are you?

We were making toast in the morning  
We were making plans how to spend our day  
I was on my phone in your tee shirt  
(How?) How didn't I know it was coming to end?

So now you're gonna be some stranger (Stranger)  
Lose all the little things that were you and me  
I was on my phone in your tee shirt  
(How?) How didn't I know it was coming to end?

I'll learn  
To finally call it right before it gets worse  
Instead of holding on  
Waiting for it to fucking burn (Waiting for it to burn)

(Who are you?) Would have let you kill me slowly  
(Who are you? Who are you?) I'm grateful that you even left  
(Who are you?) Something about the way you hold me  
Making it hard to forget  
Who are you?

We were making toast in the morning  
We were making plans how to spend our day  
I was on my phone in your tee shirt  
(How?) How didn't I know it was coming to end?

So now you're gonna be some stranger (Stranger)  
Lose all the little things that were you and me  
I was on my phone in your tee shirt  
(How?) How didn't I know it was coming to end?

Wonder if I, I'm still on your mind (How?)  
How didn't I know it was coming to end?  
We barely said bye and I don't know why  
(How) How didn't I know it was coming to end?

We were making toast in the morning  
We were making plans how to spend our day  
I was on my phone in your tee shirt  
(How?) How didn't I know it was coming to end?

(Who are you?)  
How didn't I know it was coming to end?  
(Who are you?)  
How didn't I know it was coming to end?
