

Come Back To Me

Urban Cone

On the subway home
I lost you in a fever
When did we grow old

Million things we done
We never stopped at nothing
When did we grow old

Come come come back to me
Come back to me again
Come come come back to me
Come back to me again

When you gonna
Come come come back to me
Come back to me again
Come come come back to me
Come back to me again

I've been yours for years
And now were back at nothing
When did we grow old

A million ways that
I And only I know you
When did we grow old

When you gonna
Come come come back to me
Come back to me again
Come come come back to me
Come back to me again

Please won't you take me home
I, I don't want to let you go
Please won't you take me home
I, I don't want to let you go

When you gonna
Come come come back to me
Come back to me again
When you gonna
Come come come back to me
Come back to me again
When you gonna
Come come come back to me
Come back to me again
When you gonna
Come come come back to me
Come back to me again
