

Deja Vú

Urban Cone

This time you, may lose the ones you love
Don't blow this, don't kill your future
Don't fool me, don't fool the one you love
You need to, change directions

This time you've got the chance to make things right
Don't blow this, don't kill your future

You've been here, too many times before
You need to, change directions

This may feel like deja vu, déjà vu
We can turn back time with emotions
This may feel like deja vu, déjà vu
Everything is viewed in slow motion
