

Future

Urban Cone

I'll take you places where nobody goes
Only if you wanna, only if you wanna
We'll go imaginary if you want
Tell me if you wanna, tell me if you wanna

'Cuz everything that I want is you
Everything that we feel is true
We could light up the night for good
Only if you wanna, only if you wanna

What do you wanna do with the future?

I'll take you places where nobody goes
Only if you wanna, only if you wanna
We'll go imaginary if you want
Tell me if you wanna, tell me if you wanna

'Cuz everything that I want is you
Everything that we feel is true
We could light up the night for good
Only if you wanna, only if you wanna

What do you wanna do with the future?
