

Never Enough

Urban Cone

Always shaking the first time
I'll wait, kiss me, I don't mind
All day long for the weekend, long for the weekend
Wake me up when I'm feeling lonely
Tell me that I am the only
I keep coming back for you, keep coming back for you

I wanna take you to the moon
I'll paint it golden just for you
Nobody does it like we do, like we do

I wanna hear you screaming, never enough
We need it, never enough
This feeling, never enough with you
We're dancing on the ceiling, never enough
We're dreaming, never enough
This feeling, never enough with you

Flashback, back to the first time
Soundtrack, playing in my mind
Pitch black, still I can see you, still I can see you
Keep me up 'til tomorrow
Lead me and I will follow
Leave me, still I will wait for you, still I will wait for you

I wanna take you to the moon
I'll paint it golden just for you
Nobody does it like we do, like we do

I wanna hear you screaming, never enough
We need it, never enough
This feeling, never enough with you
We're dancing on the ceiling, never enough
We're dreaming, never enough
This feeling, never enough with you

(Never, never)
(Never, never)
Never enough, never enough, never enough with you
(Never, never)
(Never, never)
Never enough, never enough, never enough with you

(I wanna take you to the moon)
(I'll paint it golden just for you)
(Nobody does it like we do, like we do)

I wanna hear you screaming, never enough
We need it, never enough
This feeling, never enough with you

I wanna hear you screaming, never enough
We need it, never enough
This feeling, never enough with you
We're dancing on the ceiling, never enough
We're dreaming, never enough
This feeling, never enough with you

I wanna hear you screaming (Never, never)
(Never, never)
Never enough, never enough, never enough with you
We need it (Never, never)
(Never, never)
Never enough, never enough, never enough with you
