

Out Of Focus

Urban Cone

Hey, don't want to lie, I'm all messed up
But it's alright, as long as you are by my side
I know it's late but girl you're always on time
Ah ah ah

High heels and a hoodie, don't stop what you're doing, doing to me
Lipstick and your leather, don't get any better (Ah ah ah)
Whole room kind of blurry you ain't got to worry
Worry at all, no not at all

Cuz when I look at you
Everybody's all out of focus
Except for you
Watch your body move in slow motion
Vision hazy but it's clear
That since I found you
Everybody's all out of focus, focus

Focus, focus
Focus, focus

Hey, now did you know
You make them all invisible
Your touch is more than physical
You're in my head
And you know you like it like that
Ah ah ah

High heels and a hoodie, don't stop what you're doing, doing to me
Lipstick and your leather, don't get any better (Ah ah ah)
Whole room kind of blurry you ain't got to worry
Worry at all, no not at all

Cuz when I look at you
Everybody's all out of focus
Except for you
Watch your body move in slow motion
Vision hazy but it's clear
That since I found you
Everybody's all out of focus, focus

Focus, focus
Focus, focus

When I look at you
When I look at you girl
Everybody out of focus
Everybody out of focus
When I look at you
When I look at you girl
Everybody out of focus
Everybody out of

When I look at you
Everybody's all out of focus
Except for you
Watch your body move in slow motion

Vision hazy but it's clear
That since I found you
Everybody's all out of focus, focus

Focus, focus
Focus, focus
Focus, focus
Everybody's all out of focus, focus
