

# Pumping Up Clouds

Urban Cone

I spend my nights awake  
Thinking about the way we used to  
Feel like a summer day  
I love to watch you sway  
But now you're someone new

Lately I know I get the strangest feeling  
From strangers falling in love  
I never thought I'd be the one to stay this  
But I don't know what to do

Let's move into our old house  
Love me this time  
We'll be grooving to the old sounds  
Pumping up clouds  
Kiss me like the first time  
Dancing like we're young  
Let's move into our old house  
Pumping up clouds  
I know we can get it right

You always got me high  
Tell me to stay the night  
I'd love to turn all the wrongs to right  
And make you stay for life  
I could be someone new

You always dreamed about a walk in closet  
I'd love to give it to you  
I still remember singing in the hallway  
We watched the stars from the roof

Let's move into our old house  
Love me this time  
We'll be grooving to the old sounds  
Pumping up clouds  
Kiss me like the first time  
Dancing like we're young  
Let's move into our old house  
Pumping up clouds  
I know we can get it right

Move move into our old house  
I know we can get it  
I know we can get it right  
Move move into our old house  
I know we can get it  
I know we can get it right

Let's move into our old house  
Love me this time  
We'll be grooving to the old sounds  
Pumping up clouds  
Kiss me like the first time  
Dancing like we're young  
Let's move into our old house  
Pumping up clouds

I know we can get it right
