

# Stop

Urban Cone

Ah, she told me forever  
Ah, three words in the letter  
Ah, mood changes like the weather  
She told me forever

I don't know how you do it  
You got me going crazy, crazy  
I keep losing, ah-ah-ah  
I guess we're over baby

All my friends are saying; stop falling in love  
My heart can't take it, oh my god, I think I'm in love, I think I'm in love  
Maybe you're the one for me  
But I know I gotta stop falling in love, falling in love

Ah, she found something better  
Ah, but she still got my sweater  
Ah, mood changes like the weather  
She found something better

I don't know how you do it  
You got me going crazy, crazy  
I keep losing, ah-ah-ah  
I guess we're over baby

All my friends are saying; stop falling in love  
My heart can't take it, oh my god, I think I'm in love, I think I'm in love  
Maybe you're the one for me  
But I know I gotta stop falling in love, falling in love

Stop falling in love  
Stop

Let me love you, let me, let me love you  
Stop falling in love, falling in love  
Let me love you, let me, let me love you  
Stop falling in love, falling in love

I keep losing, ah-ah-ah  
I guess we're over baby

All my friends are saying; stop falling in love  
My heart can't take it, oh my god, I think I'm in love, I think I'm in love  
Maybe you're the one for me  
But I know I gotta stop falling in love, falling in love

Stop falling in love  
(Let me love you, let me, let me love you)  
Stop falling in love  
(Let me love you)  
Stop falling in love, falling in love
