

We Are Skeletons

Urban Cone

I can move catch a plane, but never ask you why
I want to grow old with you
I can prove my love to you
I'll never let you down
I want to grow old with you 'cause
I love everything about you
I love everything about you
I love everything about you

I love everything about you
I love everything about you
I love everything about you

We are skeletons skin and bones
Ooh we feel so magical, magical
We are skeletons skin and bones
Ooh we feel so magical, magical

Floating on a tidal wave and disappear for good
There is nothing we can't do, ah
Promise me, I'll promise you
We won't say goodbye
There is nothing we can't do 'cause
I love everything about you
I love everything about you
I love everything about you

We are skeletons skin and bones
Ooh we feel so magical, magical
We are skeletons skin and bones
Ooh we feel so magical, magical

Everything about you
I love everything about you
Everything about you
I love everything about you
Everything about you
I love everything about you
Everything about you
I love everything about you
Everything about you
I love everything about you
Everything about you
I love everything about

Everything about you
I love everything about you
Everything about you
I love everything about you
Everything about you
I love everything about you
Everything about you
I love everything about you
