

# We Should Go To France

Urban Cone

We should go to Paris  
We should go and dance  
'Cause no one really likes us  
We should go to France  
The promise that you gave me  
This, this, this is gonna last  
But no one really likes us  
We should go to France

We've been taking it slow, oh, oh, oh  
But now it's time to ask  
Do you even like me  
This is it your chance  
The promise that you gave me  
This, this, this is gonna last  
But you don't even like me  
Alone I'll go to France

I want to be, I want to be  
The one you love  
So listen to me  
I don't want to be the one you lost  
I want to be, I want to be  
The one you love  
So listen to me  
I don't want to be the one you lost  
I want to be, I want to be  
The one you love  
So listen to me  
I don't want to be the one you lost

We should have gone to Paris  
We should have had that dance  
'Cause no one really liked us  
We should have gone to France
