A Necessary Evil

Urge Overkill

You can ask her too, you can ask till you turn blue
In the past until, its a necessary evil

You want me to keep you right
You want someone to fulfill your glass all night
It's killing me but that's alright
It's just a necessary evil

It's a master pill, never asked for what was cruel
You're the last to know, it's a necessary evil

You want me to keep you right
(Keep you right)
You want someone to fulfill your glass all night
(Glass all night)
Come show me the reason why I can try
(Know I'll try)
It's killing me but that's alright

Did you wanna know
Oh, did you wanna know

Its just a necessary evil

Nah nah nah nah
Nah nah nah
Nah nah nah
Necessary evil
Nah nah nah nah
Nah nah nah
Nah nah nah
Necessary evil

You want me to keep you right
(Keep you right)
Come show me the reason I can try
(Know I'll try)
It's killing me but that's alright
It's just a necessary evil
