

# Follow My Shadow

Urge Overkill

This day can be so long  
But it ain't where I belong  
I'm gonna shake some action  
And get satisfaction  
You show imagination  
So if you're coming along  
Come on and sing it

Come on, come on  
Let's get it on  
Wake up and strap on  
That night vision  
I know you but you don't know me  
I can show you the night  
So come on now and follow my shadow  
Everything is alright

It's time you see my way  
In the darkness o'the day  
I'm gonna make it easy  
For you to see me  
Indulge your fascination  
So if you're coming along  
Come on and bring it

Come on, come on  
Let's get it on  
Wake up and strap on  
That night vision  
I know you but you don't know me  
I can show you the night  
So come on now and follow my shadow  
Everything is alright

Come on, come on  
Let's get it on  
Wake up and strap on  
That night vision  
I know you but you don't know me  
I can show you the night  
So come on now and follow my shadow  
Everything is alright

I know just where I'm going  
'Cause I can see in the night  
Let's go, the future is calling  
And it's looking right

And it's looking right
