

## I Been Ready

Urge Overkill

You could always make some silence  
You could know our reasons since

You know more than you could possibly know now  
Cause you don't believe life is hard  
You never tried to bring me down

Cause I been ready  
I been ready  
I been ready

You can try to keep me out  
And you can know my secret now

Well you have more than you could possibly know now  
Cause you don't believe life is hard  
You never tried to bring me down  
But I got tired of the bus stop waiting  
You looked away when I found out  
I'm not trying to be frustrating  
They're not playing our song

You can start it all again  
And you could take my jagged hands

And you have more than you could possibly know now  
Cause you don't believe life is hard  
You never tried to bring me down  
But I got tired of the bus stop waiting  
You looked away when I found out  
I'm not trying to be frustrating  
They're not playing our song

I been ready I been ready  
I been ready I been ready  
Now I'm waiting
