

Won't Let Go

Urge Overkill

I know I've never been in your dreams
No one ever seems to last through all the scenes
Cause there's no one that I can loathe
I don't know what it means
There is nobody I can help
I can help but disease

Have you heard everything you wanted to
I won't let you go
Cause everything I want is you and me
Living out of faith as one

And I won't let you go
Never want to find you gone
And I won't have to wander
Ever gonna find enough
Find you gone

Well I've never seen your dreams
But I'd like to know the cracks from all the seams
And there's nothing that I can't know
I don't know what it means
And there's nobody I can help
Cause I can help but disease

Have you heard everything you wanted to
I won't let you go
Cause everything I want is you and me
Living out of faith as one

And I won't let you go
Never gonna find you gone
And I won't have to wander
Ever gonna find enough
And I won't let you go
Never gonna find you gone
And I won't have to wander
Ever gonna find enough

And find you gone
Find you gone
