

Thy Daemon Incarnate

Urgehal

In this twilight of life and the dawning of death
When the goat howl, Thy daemon incarnate

The desolate necrofield are crowned in black
Wrapped in (the) ungodly darkness of (the) moonless night
All that have prospered must wilt and die
For this is the sign from Hell, (the) seven gates unlocked

(Adsum)

In this twilight of life and the dawning of death
When the goat howl, Thy daemon incarnate
In this twilight of life and the dawning of death
When the serpent scream, Thy daemon incarnate

(Adsum)

When the bells of Thine were tolling and Thy name carved in stone
When Thy legacy was sealed and the final contract signed
When the bells of Thine were tolling and Thy name carved in stone
When Thy legacy was sealed and the final parchment signed in blood

(I Helvete for all tid)

In this twilight of life and the dawning of death
When the wolf howl, Thy daemon incarnate
In this twilight of life and the dawning of death
When the serpent scream, Thy daemon incarnate

Rejoice within the eternal flame, demonic spirit unbound
Reborn and forged in fire, Satanic destiny unfolds

Phlegethon lies still for Thy arrival
Phlegethon lies still for Thy triumph
