

Age of Changes

Uriah Heep

A new day dawn with the distant yearning
About the time when our hearts were young
Around the town you could hear the whisper
About you and me

We laughed at world at the age of changes
We said goodbye though we felt the hunger
Another time if we'd only made it
Just you and me

So many years have passed between us
Oh would they ever come back again
Now those days I still remember
Why did we ever break the chain

Under a tree when the rain was falling
We cuffed them rings and we made a vow
As close to heaven as we'd ever come to
Could it ever be

So many years have passed between us
Oh would they ever come back again
Now those days I still remember
Why did we ever break the chain

They say your first love is never forgotten
At least we had that time together
I realized that our situation
It could never be

So many years have passed between us
Oh would they ever come back again
Now those days I still remember
Why did we ever break the chain
