

Fly Like an Eagle

Uriah Heep

Breathe in, breathe out
Can you take a little more?
Close your eyes, sink down
Can you find what you're looking for?

Keep still, don't make a sound
Let it all come unto you
Mind's eye, dream quest
The spirits know what to do

Deep spells between heaven and hell
Let the voyage guide you through

Fly like an eagle
Cutting through the skies
Let your breath teach you
Far beyond your eyes

Endless space, warm embrace
There's no judgement from this view
Ancient rituals
From the Cheyenne to the Sioux

Reined souls, rabbit holes
Enlightenment pursued

Fly like an eagle
Cutting through the skies
Let your breath teach you
Far beyond your eyes

We're going deeper now
Through time and space
Connection passing by
It all falls into place
Looking for some meaning
Find out who I am
Clear in my mind
I can now understand

Deep spells between heaven and hell
Let the voyage guide you through

Fly like an eagle
Cutting through the skies
Let your breath teach you
Far beyond your eyes

Fly like an eagle
Cutting through the skies
Let your breath teach you
Far beyond your eyes
