

Freedom to Be Free

Uriah Heep

I heard you say the change had come around
And that my wise words won the day
Just when you felt the axe was falling down
You saw there was another way

Everybody's gotta have a dream in life to chase
Dust you down and start over again

It took a little while to see that you were stronger
Hope has the power to change
Then came the courage, the strength and the wisdom
That blew all your nightmares away
Out went the monster that kept you from living
And stopped you from having your say

You make mistakes but you're still standing tall
The signs of life flows through your veins
Reach out and touch the light inside your soul
Seeds of confusion are the chains

Everybody's gotta have a ghost inside of their mind
Just beware they'll pull on your lifeline

You breezed through day to day, you might as well be sleeping
While life was dragging you down
Slowly but surely, through faith and conviction
Taking the help that you found
You kicked out the demon that stopped you from living
And put your feet back on the ground

So on you go, victorious
I see your light, it shines beyond the stars
So on you go, victorious

So on you go, victorious
I see your light, it shines beyond the stars
So on you go

So on you go into this wild world
So full of life and mystery
And if the spirit lives forever
It lives for freedom to be free

You breezed through day to day, you might as well be sleeping
While life was dragging you down
Slowly but surely, through faith and conviction
Taking the help that you found
You kicked out the demon that stopped you from living
And put your feet back on the ground

So on you go, victorious
I see your light, it shines beyond the stars
So on you go, my friend, it's all for you
