

Ready or Not

Urma

show me what you got
give me your best shot
i won't run

hit me with your words
place yourself above
i won't mind

open all the doors
and let me see the false
i won't tell

a friend stays a friend

play the usual game
blame me for your pain
you won't heal

settle all your scores
crucify my hopes
you won't win

leave your self defense
and play your innocence
i won't fight

a friend stays a friend

ready or not i won't run whatever taking out of me
ready or not i won't hide whatever you might feel for
me
ready or not

show me what you need
let me pay the trip
i don't need your answers
a friends stays a friend
open all the doors
let me see the false
you don't need my answers
a friend stays a friend

ready or not i won't run whatever taking out of me
ready or not i won't hide whatever you might feel for
me
ready or not
