

Roll the Dice

Urma

roll the dice and let's begin
understand I'm not predictable
the usual tricks won't help you win in here
as all the luck belongs to me

raise the bet and make your move
take the prize and hang it on your wall
I'm not afraid to fall I've never been
you have to lose before you win

I've got to live I've got to feel I've got to run
Until I'm wasted
Running circles in my name

play your card and prove your flair
bring it on just push me further more

I'm on the edge just help me dive for free
a journey for my inner self

I've got to live I've got to feel I've got to run
Until I'm wasted
Running circles in my name

how long can you stay away?

how ong can you stay out of me?

how long can you stay away?

trapped in your needs...
