

Under My Skin

Urma

Such a perfect day

would you smile for me
it's all that i need
let it out once more
I am down on my knees
let me see the world
in colors given by your smile
and teach me to try

Cause more than you could see
You're under my skin
A light in my blood
I'm living the dream you give
And I don't need their world
You're all that I've got these days
I have to say it now
I'm in love

Such a perfect day

come on, dance with me
and show me the steps
just take the lead and guide
I'll follow the rest
and I don't need words
your smile is doing all the talk
just keep me in your arms
I don't want to fall

and more than you could see
you're under me skin
a light withing my blood
I'm living the dreams you give
and I don't need their world
you're all that I've got these days
I have to say it now
I'm in love

Such a perfect day
