

Bad Days

Us The Duo

When I feel pain
I run away
But you're always beside me reminding me to stay
I'm not my past
But it led me to now
It's easier to move on when I've got you around

You brought me out of my worst

There is hope inside your arms
There is love inside your smile
There's everything I need and more
When your hand is holding mine

You keep on helping me through

Mm...

Bad days are better with you

When I wake up in the morning
With a heavy heart
You see my guard's up and you pull them apart
I'm not okay
But you meet me where I am
It's easier to move on when someone understands

You brought me out of my worst

Mm...

There is hope inside your arms
There is love inside your smile
There's everything I need and more
When your hand is holding mine

You keep on helping me through

Mm...

Bad days are better with you

Bad days are better with you

There is hope

Inside your arms

There is love

Inside your smile

There is hope

There is love
