

Before We Go

Us The Duo

What's happening inside of me?
We didn't even kiss
I've been with just a few before
But nothing close to this

Maybe it was his smile
Contagious at the least
Or maybe it was his eyes
The greatest ones I've seen

So here, we are
Here, we are

Before we go far away, I should say
Before we go far away, I should say this
Before we go far away, I should say
That I'm in love

I didn't know it right at first
But sometime in the night
She grabbed my eyes from across the room
This heart no longer mine Mmm

Maybe it was his laugh
That kept me on my toes
All these things left me in love
And only my heart knows

So here, we are
Here, we are

Before we go far away, I should say
Before we go far away, I should say this
Before we go far away, I should say
That I'm in love

Love
Love
Love
Love

Before we go far away, I should say
Before we go far away, I should say this
Before we go far away, I should say
That I'm in love
Love
Love
