

Better Off

Us The Duo

Baby

I feel different when you're with me
And I'm thinking I'd be better off
With you

It's boring just to think about
Flying 'round the world without
Anybody
I picture you inside my plane
Drinking all this free champagne
Are you somebody?

Midnight

Long talks
Daybreak
We don't stop
Can you get used to
The sound of us?

Baby

I feel different when you're with me
And I'm thinking I'll be better off
With you

Taking pictures by myself
Dreaming I'm with someone else
Anybody
I'll picture you inside my frame
And maybe I can smile again

Are you somebody

Midnight
Long talks
Daybreak
We don't stop
Can you get used to
The sound of us?

Baby

I feel different when you're with me
And I'm thinking I'll be better off
With you

My solo journey, lots to find
I'm over being only one
Loneliness won't part me
From seeing you in front of me
I'm better off
I'm better off
With you around

Baby

I feel different when you're with me
And I'm thinking I'm a story
Fall for you
Oh-

Baby
I feel different when you're with me
And I'm thinking I'll be better off
With you
