

Close to You

Us The Duo

Every time I inhale, I breathe you in
Every time I exhale, I make more room for you babe
You circulate inside of me, you give me life so I can be alive
This love that's inside of you
Is inside of me, and it's all mine

Oooo, I can never have enough of you
Oh, (Ooo, ooo, ooo)
Oooo, and every little thing you do
I just wanna be close, I just wanna be close to you

Every time I'm alive, I know you're near (I know you're near)
Every time I'm afraid, you fight away the fear (fight away the fear)
Every time that I can smile, I know you're close behind
Oh, this love that's inside of you
Is inside of me, and it's all mine

Oooo, I can never have enough of you
Oh, (Ooo, ooo, ooo)
Oooo, and every little thing you do
I just wanna be close, I just wanna be close to you

I'm desperately, needing and constantly breathing for you
For you
My heart is beating, repeating and beating only for you

Ooo, ooo, ooo, ooo
Oooo, I can never have enough of you
Oh, (Ooo, ooo, ooo)
Oooo, and every little thing you do
I just wanna be close, I just wanna be close to you
