

December

Us The Duo

We gather by the tree and everyone can see
It's Christmas

I love the faces on the kids
As they open up their gifts

It's Christmas

I look around and smile at my family and my friends

And suddenly I'm sad that it will all come to an end

Why can't Christmas last all year
I finally got my family here
I'll miss all the moments I'll remember

January is soon to come
But I'm just having too much fun in December

The food's made us lazy
'Cause mama's cookies are amazing
It's Christmas

The wine's made us crazy
The night is getting kinda hazy
It's Christmas

I look around and smile at my family and my friends

And suddenly I'm sad that it will all come to an end

Why can't Christmas last all year
I finally got my family here
I'll miss all the moments I'll remember

January is soon to come
But I'm just having too much fun in December

I don't wanna wait again for lots of hugs and kisses
I wish every day could be just like Christmas
I don't wanna wait again for lots of hugs and kisses
I wish every day could be just like Christmas!

Why can't Christmas last all year
I finally got my family here
And these are all the moments I'll remember

January is soon to come
But I'm just having too much fun

Why can't Christmas last all year
I finally got my family here
I'll miss all the moments I'll remember

January is soon to come
But I'm just having too much fun in December
