Fall Asleep

Us The Duo

Ohhhh Ohhhh I'm always worrying through out the day
These trouble and problem never goes away
And at the end of the day I just want to lay my head
On the pillow next to yours inside our bed

I just want to fall asleep
I just want to fall asleep
I just want to fall asleep
Inside your arms
I just want to fall asleep
I just want to fall asleep
I just want to fall asleep
Inside your arms

I'm always worrying when I'm awake
Life is kinda hard with all this give and take
When it's too much to bare and I'm all-alone
I think about lying next to you when I get home

I just want to fall asleep
I just want to fall asleep
I just want to fall asleep
Inside your arms
I just want to fall asleep
I just want to fall asleep
I just want to fall asleep
Inside your arms

We're just lovers we're just lovers
Under the covers under the covers
We got each other each other now
We're just lovers we're just lovers
Under the covers under the covers
We got each other each other now
Woah yeah woah oh yeah
Woah yeah woah oh yeah

I just want to fall asleep
I just want to fall asleep
I just want to fall asleep
Inside your arms
Inside your arms
Inside your arms
Inside your arms
