

# Finally Know What Love Is

Us The Duo

It's unpredictable  
More than physical  
It's under my bone  
You can't ignore the magic when it's there

Ooh, my body feels it everywhere

I finally know what love is  
I finally know what love is  
I finally know what love is  
I finally know what love is, love is, love is

It's uncontrollable  
The flowers still unfold  
From your fingers to your toes  
You can't ignore the magic when it's there

And ooh, my body feels it everywhere

I finally know what love is  
I finally know what love is  
I finally know what love is  
I finally know what love is, love is, love is

And babe  
Let's take a second to breathe  
I know just what you need  
Just what you need  
Ooh

I finally know what love is  
I finally know what love is  
I finally know what love is  
I finally know what love is  
I finally know what love is, love is, love is  
I finally know what love is, baby
