

# Get Gone

Us The Duo

I know my trigger now and you're one of them  
You share your opinions but I'm sick of them yeah  
You don't make me angry, you make me furious  
What do I have to do to shut you up

You think you have the power but I'm still ahead  
You rot in your apartment while I'm in my king sized bed

You need to get gone  
I need to let you go  
I'm used to running fast  
But you're so slow  
Hey, you need to get gone  
You keep on hustling me  
But I can fix that if you  
Get away from me  
Oh, oh, oh  
Get gone

You yell your orders while you live in your fantasy  
You're only where you're at because of me, yeah  
Your play will soon be over, the bad guys always lose  
When you come running back I'll still refuse

You think you have the power but I'm still ahead  
You rot in your apartment while I'm in my king sized bed

You need to get gone  
I need to let you go  
I'm used to running fast  
But you're so slow  
Hey, you need to get gone  
You keep on hustling me  
But I can fix that if you  
Get away from me  
Oh, oh, oh  
Get gone

You need to get gone baby  
Get gone away from me  
You need to get gone baby  
Get gone away from me  
You need to get gone baby  
Get gone away from me  
You need to get gone baby  
Get gone away from me, oh, yeah

I need to let you go  
I'm used to running fast  
But you're so slow  
Hey, you need to get gone  
You keep on hustling me  
But I can fix that if you  
Get away from me  
Oh, oh, oh  
Just get away from me  
Oh, oh, oh

Get gone
