

Never Gonna Leave You

Us The Duo

There's a million other guys who would leave ya
And when you say that you're in love they won't believe ya
When you're gone and outta town, they'll deceive ya
Girl you must examine how they treat ya

I'm the kinda guy who wants to show you why
Love can conquer all
Don't be worried, don't be scared
Just know that I'll be there

I'm never gonna leave you
I'm never gonna break your heart again
I'm never gonna leave you
Searching far and wide for your loving man
You don't have to look far, you don't have to look around
My love's inside of you and that heart that pounds
I'm never gonna leave, never gonna leave

You [x4]

There's a million other guys who would date ya
Just to turn around and replace ya
And in their double life they never educate ya
Cause down in their heart they're just a playa

I'm the kinda guy who wants to show you why
Love can conquer all
Don't be worried, don't be scared
Just know that I'll be there

I'm never gonna leave you
I'm never gonna break your heart again
I'm never gonna leave you
Searching far and wide for your loving man
You don't have to look far, you don't have to look around
My love's inside of you and that heart that pounds
I'm never gonna leave, never gonna leave

You [x2]

Woahhhh

You're the only one I wanna hold
Yeeeeeeeeaaaaahhhh
Don't be worried don't be scared
Just know that I'll be there

I'm never gonna leave you
I'm never gonna turn my back and run
I'm never gonna leave you
Cause with you, I've already won

You don't have to look far, you don't have to look around
My love's inside of you and that heart that pounds
I'm never gonna leave, never gonna leave

You [x8]
