

# Nothing Can Stop Us

Us The Duo

Do you remember when we first kissed?  
I was nervous leading up to it  
Then I felt your lips and time slowed down  
If I described the feeling, here's how it will sound  
La-da, la-da-da-da, la-da, la-da-da-da-da, hm, yeah

Do you remember when you would dance with me?  
I'd step on your feet, but you'd still let me lead  
When the song gets done, you'd squeeze me tight  
And say, "I love you, baby, we gon' be alright"  
La-da, la-da-da-da, la-da, la-da-da-da-da, oh

I can't predict the future, won't forget our past  
But I love you now and now is all we have  
I'm in tears as I write this, 'cause I don't say this enough  
I love you then, I love you now, I love you forever  
Oh, nothing can stop us

Do you ever think about when we get old?  
Will we grab ice cream and coffee at the mall?  
Will our conversations make us laugh?  
While eating brunch then hold hands while walking back  
La-da, la-da-da-da, la-da, la-da-da-da-da, oh

I can't predict the future, won't forget our past  
But I love you now and now is all we have  
I'm in tears as I write this, 'cause I don't say this enough  
I love you then, I love you now, I love you forever  
Oh, nothing can stop us

Baby, if we ain't got problems then we ain't got love  
'Cause if we made it this far then nothing can stop us, oh

I can't predict the future, won't forget our past  
But I love you now and now is all we have  
I'm in tears as I write this, 'cause I don't say this enough  
I love you then, I love you now, I love you forever  
Oh, nothing can stop us
