

Safe

Us The Duo

I see the monsters under my bed
But I'm safe with you
I hear the voices scream in my head
But I'm safe with you

I found a home inside your arms
I'm safe with you
I'll never be scared again because
I'm safe with you

I feel the ghost that hides in the dark
But I'm safe with you
I see this whole world falling apart
But I'm safe with you

I found a home inside your arms
I'm safe with you
I'll never be scared again because
I'm safe with you

I found a home inside your arms
I'm safe with you
I'll never be scared again 'because
I'm safe with you
