I don't need to dine by candlelight

Wine or Barry White to set the mood off right

All I need is you tonight You're an afternoon delight You whet my appetite so let me have a bite The sex is outta sight You know just how I like it And didn't have to be told We go to bed but we don't get much sleep though Eyes can't keep closed, my own private peep show She knows how to stroke more than my ego You're a torpedo heading straight for my libido Hitting below the belt, what a deep blow she dealt We both just melt in the heat of passion I see it happen over and over in my head it's like a re-enactment Of my wildest dreams It's like a scene from a movie screen Erotic beauty queen It don't take much to get me in the mood All you have to do is walk in the room You're a natural afrodisiac Damn I never felt like that before I just left and now I'm at your door back for more I'm not asking for a lot just all you've got First time I saw you my jaw just dropped cause you're so hot Close your door; make sure it's locked Cause your way's unorthodox When your neighbours called the cops they all just watched And I ain't wanna stop Nothing can keep me back cause she's a natural afrodisiac our lovemaking's breathtaking I'm left shaking in front of the bed pacing Just waiting for the next occasion I'm usually very patient but now my belly's aching Butterflies in my stomach, I'm lovesick, you're my medication No love potion's this potent You got me open; I'm hotter than molten lava That's how ya got my juices flowing An explosion of emotion, the dam's broken No holding back I'm ready to blow my stack You're a natural afrodisiac You're like a book, X-rated I look through your pages Almost fainted when I saw you naked I'm like a boy and you're my favorite toy to play with A joy you make it to call you lover Cause you work wonders under the blanket So let's get physical I wanna get your whole body under the mistletoe and kiss it slow Starting with your toes Then work my way up your curves til I struck a nerve I feel like such a perv

That's what you do to me
But don't stop you do it beautifully
I don't know if it's love or lust
But oh what a rush
Just your touch does so much
Even brushing up against me accidentally
Sends me into a frenzy no matter how gently
That's why I never took viagra
Cause all I have to do is look atcha
You're a natural afrodisiac
