Mama

US5

If my time on earth was over,
Then the last thing I would do
Is to pray to God and just thank him
For blessing me with you
What you did for me was a miracle
Every word you said was true
You were always there and protected me
This song goes out to you

Mama, I never meant to make you cry
Mama, forgive me for the times I hurt you
Mama, if I could only turn turn back time
My live would be complete

In my darkest times, you're my shining light
I can always count on you
You were there for me, when I couldn't see
And helped me make it through
Remember when I was just a little child
All the things we used to do
I will cherish all the memories
That's why I sing this song to you

Mama, I never meant to make you cry
Mama, forgive me for the times I hurt you
Mama, if I could only turn turn back time
My live would be complete

How am I to make it through the night?
How am I to live my life my life when you're not here by my sid
e?
Mama you're the reason why I've become a better man
Every word you said was true, and I'll make it up to you

Mama, I never meant to make you cry
Mama, forgive me for the times I hurt you
Mama, if I could only turn turn back time
My live would be complete

Mama, I never meant to make you cry
Mama, forgive me for the times I hurt you
Mama, if I could only turn turn back time
My live would be complete

Oh Mama...
