

# Dreamin'

Usher

There's a long and windy road that we have traveled  
And the price that waits for all who will prevail  
There's a place for those who stand up tall and battle  
Up against our lives determine that to fail  
And when the moment comes you know that you'll be ready  
To push yourself beyond where you have gone before (never before)  
So write your name beside the very best in history and take a bow  
Before the crowd and hear them roar  
Anything you can do this is from me to you

Just keep dreamin  
Keep on dreamin (gotta believe)  
And if you really believe in time you will make your dreams come true  
(uh just keep dreamin)  
Keep dreamin don't stop dreamin  
Cause no one else can live a dream but you

So you rise above each utorial you encounter  
Let no obstacles before you slow your speed  
Or you possess a will to win them burn insincely  
And when you will yes this will be your creep ohh  
And when the moment comes you know that you'll be ready  
To push yourself much harder then you sone before (never before)  
So write your name beside the very best in history  
And take a bow before the crowd and hear them roar  
Anything you can do this is from me to you (take it from me)

Just keep dreamin  
Keep on dreamin  
And if you really believe in time you will make your dreams come true  
Keep dreamin don't stop dreamin  
Cause no one else can live a dream but you

And in the end with no regrets you given your all and nothing left  
You know you been the best that you can be  
No one can say you didn't try  
Go on and wave your better high  
And save a that sweet taste of victory (ohhh yea)

Dreamin keep on dreamin (ain't no stopping you)  
And if you really believe in time you will make your dreams come true (that'  
s if you want it)  
Keep dreamin don't stop dramin  
Cause no one else can live a dream but you  
Just go ahead and live a dream

Anything in life can happen if you give your best in all you do  
(Ain't no living) Ain't no living for those who want it  
Keep a chance and let it all come true  
Shake your fears and hold your head high  
You can make it if you really try  
Cause no one else can live a dream but you

Dreamin keep on dreamin  
And if you really believe in time you will make your dreams come true
