

I Love U

Usher

USHER

Yeah, uh, listen, uh

Got love in our sights
Girl, leave the lights on
I'ma love you through the night
Baby, wait till I get home
Puttin' up a fight
What you gotta know is nothing
I know what I like
You just gotta trust me

When I say I don't care
That just means I love you
Runaway when I'm scared
Girl, you know I love you
Don't you see me right here
Tellin' you, "I love you?"
This couldn't be more clear
"Bae, I love you"

Why you lookin' so surprised?
Girl, you know you got me
See it in my eyes
How could you doubt me?
Somethin' in your mind
It's more than a night thing
And you got me high
Catch me, I'm fallin'

When I say I don't care
That just means I love you (That just means I love you)
Runaway when I'm scared (Oh-oh)
Girl, you know I love you (I love you, oh)
Don't you see me right here (I'm right here, baby)
Tellin' you, "I love you?"
This couldn't be more clear (This couldn't be more clear)
"Bae, I love you"

See me from there
That'll make it
Clear, clear, clear
'Cause I can see you from there
Tryna make this
Clear, clear, clear

Oh, I ain't never had nobody quite like you
I'm in love with every single little thing you do
Baby, off the ecstasy, yeah
My divinity, look at what you've done to me (I love you, babe)

When I say I don't care
That just means I love you (I love you, girl)
Runaway when I'm scared (I'm scared, but I)
Girl, you know I love you (I love you, girl)
Don't you see me right here (Oh, right here)
Tellin' you, "I love you?" (I love you)

This couldn't be more clear (Aw, baby)
"Bae, I love you"

When I say I don't care
That just means I love you
Runaway when I'm scared
Girl, you know I love you (I love you)
Don't you see me right here
Tellin' you, "I love you?" (I love)
This couldn't be more clear (More clear)
Bae, I love you (I love you, yeah)

Ooh-oh-I
Oh, I'll ride, babe
That just means I love you, babe
I ain't afraid to say it
Oh, I
I love you, babe
