

On The Side

Usher

I know that it's wrong
But it still feels so right
I'm in love with a girl that I see on the side
We both know the truth
But I still tell a lie
I'm in love with a girl that I see on the side

We be talkin' through DM
Now, finally I know all her friends now
Got me a girl and she got her a nigga
He never stood a chance, he don't give what I give her
Don't say nothing we keep it private
PDA, it ain't our option, no
But I'm a different person every time I get with her
I mean I love my baby but she way thicker

I introduce her to things she ain't use too
I got a woman but baby don't want to lose you
It's what I want and everything that I need, her

I know that it's wrong
But it still feels so right
I'm in love with a girl that I see on the side
We both know the truth
But I still tell a lie
I'm in love with a girl that I see on the side

We got the late night textin'
If we keep all this up, both of our flings gon' to turn exes
When we showed at last
She come and see me in Atlanta
We rendezvous in Texas
Sending me pictures with her clothes off
Why she gotta be such show-off?
Step outside to take a phone call
She tellin' me she ready (Bet)

Ooh I introduce her to things that she ain't used to
Got a woman but baby don't want to lose you
It's what I want and everything that I need

Ooh, I know that it's wrong
But it still feels so right
I'm in love with a girl that I see on the side
We both know the truth
But I still tell a lie
I'm in love with a girl that I see on the side

It's too late for me to slide out
I can only hope my baby don't find out
You can only hope your nigga don't get wise
That I'm the one you're seeing and receiving on the late nights

Yeah, we cuttin' it close
Runnin' out of alibis
It's just a matter of time
Still I don't want to let it go

So we gonna have to keep it our secret

I know that it's wrong

But it still feels so right

I'm in love with a girl that I see on the side

We both know the truth

But I still tell a lie

I'm in love with a girl that I see on the side
