

Please U

Usher

Listen to my heartbeat, baby
Listen to my heartbeat looking for you
Listen to my heartbeat, baby

Let's take this good night, make it better
These sheets is dry, let's make 'em wetter
Pour up a drink, we can talk about it
Any little thing, we can make it happen
I'ma make all your wildest dreams come true

Ooh, baby, just please
Please let me, please let me
Please you
Know you got needs
So please let me, please let me
Please you
'Cause all of my intentions are good
I'd fall to Hell and back, yeah, you know that I would
Just to please
Let me

(Listen to my heartbeat, baby) Oh, looking for you
(Listen to my heartbeat looking for you) Ooh, baby
Oh-oh, baby, yeah

Let's make this moment last forever
Say what you want, I got what you need
I'll supply you till you get tired
Ooh, treat you like you're my opps, I want all the smoke
Now we face to face with that energy and attitude you had before
Girl, it's my pleasure, win or lose
When you let me

Please
Please let me, please let me
Please you
Know you got needs
So please let me, please let me
Please you
'Cause all of my intentions are good
I'd fall to Hell and back, yeah, you know that I would
Just to please
(Let me) Let me, yeah

(Listen to my heartbeat) Ooh, listen
(Listen to my heartbeat) Girl, you are the prize
Yeah, you are a keeper
(Listen to my heartbeat) If you got time, girl, I'm tryna slide
Can't get it out my mind
Run it back on replay

Please
Please let me, please let me
Please you
Know you got needs
So let me

Listen to my heartbeat, baby
Listen to my heartbeat looking for you
Listen to my heartbeat, baby
