I wanna be here eternally  
C'mon, give it to me  
I can see you are all I need  
□□□□□□□□□□□□

You sparkle a little in front of my eyes  
I can't see around me  
Where are we?

Don't disappear  
Into the background that's started to get noisy  
I can't hear anything anymore  
But I can feel you breathe

This isn't really like me, but I'm expecting, oh oh  
A surprisingly whimsical development

I wanna be here eternally  
I want us to keep gazing at each other like this  
I can feel you close to me  
I can't stay by your side forever  
I just want this moment to last forever

Before I go out to fight  
I want to take a break with you  
Promises are for the next time we see each other  
Can you hear me breathe?

There are times, oh oh  
When anyone would be excited by an unsurprising development

I wanna be here eternally  
Somewhere where nobody can find us  
I can see you're all I need  
I don't need any help until tomorrow  
Surely even this moment is just a fantasy

I can feel you close to me

Even if I can't go back to that place  
Just this feeling will last forever

I wanna be here eternally  
Come on, give it to me  
I can see you're all I need  
Only this moment will last forever
