I wanna be with you now  
distance  
We can start sooner  
I wanna be with you

Keep on trying, baby  
Trust me

I wanna be with you now  
distance

We can start over  
I wanna be with you now  
distance  
We should stay together  
I need to be with you

Even though I worry about it, I can't ask  
I'm tired of swimming, and even you have become shy

I want to see you, but an invisible wave pushes us  
And I wind up a bit further away from you again

Keep it going baby, don't let it stop  
If you don't feel the same way, tell me  
Even though you make a point of not overdoing things  
It's okay to do so sometimes

I wanna be with you now  
Let's shorten the distance together  
We've still got time now  
We can start over  
We can't become one  
I wanna be with you now  
Someday we'll be able to  
Embrace this distance  
We can start sooner  
I still wanna be with you

By hurting me this much with just one word  
You've taught me what loneliness is

When you can't keep your promise, keep on trying baby  
It's not quite what we promised, but just trust me  
Even though I make a point of not overdoing things  
It's okay to do so with you

I wanna be with you now  
Let's stare at the distance together  
We've still got time now  
We can start over  
I want to put this into words  
I wanna be with you now  
We'll soon be able to  
Embrace this distance

We should stay together  
I still need to be with you
