I don't care about anything
With a carefree expression
I was always, always praying
Asking for too much
I'm not easily satisfied
So I'll keep trying

The ten o'clock comedy show
Helps me relax after work
But being alone kind of sucks
I think that feeling's important, too

It's becoming more tiresome than last year
There's a prize that only challengers can win
I want it

I don't care about anything
I was a little late this morning
But from now on I'll try my best
I'll expect a lot
But I'm not a fool
So I'll keep trying

Actually, I'm hungrier than anyone
Even if I hide my confused feelings
The mirror reflects my timid face each morning
I want to get rid of it

A wish on a moonlit night is a beautiful thing
It'll be my target, jump in the mud
Lady, let's go

I don't care about anything
While striking a cool pose
I battled telling the truth
You worry about your important life so much
Take a break

"Time is money"
Don't say you'll be a government official in the future
Don't you have any dreams?
"Money over love"
It doesn't matter that your darling is a salaryman
If there's love

I don't care about anything
With a carefree expression
I was always, always praying
Asking for too much
I need more and more to be satisfied
So I'll keep trying

I try to stay afloat
But the world's ebb and flow is pretty intense
No matter the time

The only thing that won't change in value is you

The boy will always,

Always be my secret love

You can't put a price

On passion, passion

Dad, keep trying, trying

Mom, keep trying, trying

Big brother, train conductor, bride keep trying, trying
